“THE MATCHLESS ENFIELD .303 No. 4 MK I (T) SNIPER IN PICTURES” is a graphic novel-style version of the paperback book. It has been optimized for tablets and iPads as those devices best show the details of the full color pictures (and odd b&w period photo), but it will play on phones and Kindle readers. This graphic novel format allows 20 pages for the photos and captions, so this version has illustrations on every page for someone who may wish to just see the unique rifle, ammo and gear. All the pictures and the full text of “THE MATCHLESS ENFIELD .303 No. 4 MK I (T) SNIPER” is only in the paperback book, and an abridged version of the text is available on Kindle with 18 pictures. This version has just the few

words necessary to describe what you're seeing. I believe this is a first for a non-fiction book on a technical subject, and if it is even modestly well received, it won't be the last. This version contains 19 color and 5 period b&w photos. Since this one of the first attempts on such a subject, the author would appreciate your thoughts in either a review or through email.
