As we are beginning to finally emerge from the restraints of the pandemic this book is right on time for self-reflection. Wanderer Thinking Too is Rodney's second contribution to the world as a collection of poems and prose from his views of the pandemic. This new book is very different from his first book titled Wanderer Thinking, and is meant to stand as a snapshot of his personal development & growth. From being placed on furlough to finally participating in politics for the first time in his life. Wanderer Thinking Too represents Rodney now as a grown man in his 30s. Still as reflective as he was in his teens and 20s, but now with some maturity to back him up the poems matured with his life experiences.
